

# POST-CONFERENCE WORKSHOPS

*Monday, March 1*

**9 am -- 2 pm, Crispus Attucks  
NCGR-PAA Certification Exams**

Continuing a developmental process begun more than a quarter of a century ago in Princeton, NJ, NCGR's Curriculum and Certification Program (now under the auspices of NCGR-PAA) is internationally acclaimed for excellence. Divided into four levels of competency, the first three levels require testing supervised in person by qualified monitors. Tests are offered at NCGR and other conferences throughout the world, as well as by arrangement with our local chapters. Our Education and Certification Program (now under the auspices of NCGR-PAA) has withstood the test of time! Our Education Committee continues the work begun all those years ago by updating and revising the curriculum as well as monitoring our large scale testing and certification program -- the most highly respected in the field. Our revised Curriculum and Study Guide is available at the NCGR table on the main floor or at the NCGR-PAA website: [www.astrologersalliance.org](http://www.astrologersalliance.org).

**10 am — 3:30 pm William Dawes  
Steven Forrest Workshop:  
Introduction to the Basic Principles of Evolutionary Astrology**

Evolutionary astrology integrates ancient metaphysics and psychology, then reframes modern conventional astrology in the light of that fusion. Freedom and choice dominate the system. Assuming reincarnation, every planet and point in the chart represents an unresolved issue from a prior lifetime, which is visibly reflected in present-life dynamics. Each one also promises a possible resolution of that dilemma. As we take our conventional interpretations into this evolutionary context, we move beyond "description" into "prescription."

**10 am — 3:30 pm Haym Salomon  
Roy Gillett Workshop:  
Seeing and Solving World Problems with Mundane Astrology**

Following Kepler's very modern view of the role of astrology, we will seek advice from the charts of nations, events and the leading people involved. The focus will be particularly upon the astro-narrative of the Middle East crisis dating back to 70 CE, and the prospects for USA, China and the world economy as we face the Pluto return of the Industrial Revolution.

*Visit our website, [www.geocosmic.org](http://www.geocosmic.org)  
to purchase MP3/CDs of this conference  
as well as past NCGR conferences  
and to order back issues of our Journal.*
